"Early Application."

Early last May a traveler in Oregon could not fail to have observed stopped upon blacksmiths' bogs and livery stables and other public places, in different parts of the State, printed notices that George L. Curry would at times stated, address the people on the political issues of the day, urging at the same time especial attendance.

Soon after it was observed that a rudely equipped, long haired individual, on a Cayuse, with saddle bags and blankets, apparently well prepared for a campaign, emerged from the fern and brush somewhere in the neighborhood of Boone's Ferry on the Willamette, and passing the whip to the animal, moved off readily to the South, never stopping for a moment, unless meeting a stranger, and then like the illustrious Sancho, he would halt, and in all possible ways, endeavor to impress the stranger with suitable ideas of his very great importance, and of the favor he conferred by holding converse with the traveler.

Still observing, you would see our hero, passing on, his countenance beaming with hope—as if talking among the stars—repeating to himself, "the early bird catches the worm," "make hay while the sun shines," "seize Time by the Forelock," and other remarkable sayings of ancient and renowned sages. Anon, he arrives at Butteville, where three men, two boys and a half breed, were patiently awaiting his appearance and performance. A speech was made for the practical reason that it was a good gathering on which to commence the oratorical campaign. Finished, away went our man and Cayuse reached another stand, which, however, he was not to occupy until next morning at ten o'clock. Cayuse was put up—the inner man cared for—very wise remarks were made by the few men and boys who happened to be about—and an early retirement was called to prepare for the performance of the morrow. The spoils consisted of liquor, bad whiskey and triumph, for a time prevented repose, but at length Cayuse nature's sweet restorer did its duty, and looked in to stop the unusual excitement. Day at found him brushing his cayuse, smoothing his hair and throwing himself into various charming oratorical attitudes. Breakfast was enjoyed—hot cakes, sticks and Hyson seemed to give pleasure to Nancy, the good maid, who turned out and swept around the fire. The grand hour—for which all those hours' secret study to be made, was last upon the stage—and he looked up and down the street, expecting to see the crowd hastening to the town. But there were no signs! there were no carriages getting ready at the tavern! The time came and passed, and not a man with upturned countenance signified the anxious speaker's presence. The time for the meeting was past, and he looked back for the Yoncalla road, for the Cayuse at the highest speed, flying hair flaring dirt, hurrying on, and in a short time was lost to sight.

"What is the matter?" "Why?" Governor Curry making Butteville a political post! Nancy—together hands right over her left, with fingers extended, and her little head inclined to the sun, cried—"O Lord!"

And thus ended that day, Gov. Curry's [illegible]

Wednesday's Love on Horses, Presidents, Bibles in Pulpits, his wife on the door step of Governor Gaines, and Bell in search of the white chapel will rather surprise the natives. The night before the horses were expected to the ridden, they were greased outright over with a paste of white whiting, the polished wooden parts of the harness were blacked, and the animals were ready for the start. In the morning it was found that the paste had not been well rubbed in, and consequently had left a white powder on the hair, which presented a beautiful appearance as the animals were led out. OFFICIAL PAPER OF THE CITY.

No flag but the Old Flag—the Red, White and Blue,
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave,
Whose blood bought the banner your valor must save.

SATURDAY MORNING, DEC. 7, 1861.

The Portland Advertiser Shows its Cloven Foot!

W. S. O'Brien is a Secessionist. He is an Irishman by birth, and that makes this fact a strange thing. Yet it is not more strange than that we find among men born in the free States, secessionists and traitors. Even a young man of New England birth applied by letter to Joseph Lane, to secure him a commission in the Southern army. Thomas Francis Meagher is another Irishman—a distinguished friend of our Union—eloquent, brave and chivalrous. He is at the head of as brave a regiment of Irishmen, citizens of New York, as ever entered the battle field.

W. S. O'Brien desires to repress the patriotism of the Irish Americans. For that purpose, he has addressed in a Secession paper, many questions to Col. Meagher, having that especial object in view. Very properly and appropriately are these selected for publication in the Portland *Advertiser*. O'Brien and the *Advertiser* are working in the same cause.

We copy from the *Advertiser* some of these questions:

Let us first contemplate the case in which success shall have crowned the efforts of the Unionists, and that Charleston, Augusta, Savannah, Montgomery, Mobile, Memphis and New Orleans shall be in possession of the Federal troops.

Will such a conquest tend to reconcile the Southerners to acquiescence in the Union?

Does not the whole course of history show that a conquered nation can be kept in subjection only by the same means by which it was conquered?

Have you estimated what number of men will be required to keep in subjection a territory which is nearly as large as the whole of Europe, or what will be the annual expense imposed upon the Union by the maintenance of such a force?

Have you considered the probable operation of this system of military government upon the conquering and conquered States of the Union?

Do you believe it possible to maintain a Republican form of government in the conquered States?

If representative institutions be allowed to subsist, will not the discontent of a conquered people break out, not only in impatient murmurs, but in perpetual efforts to counteract the policy of the Union?

On the other hand, are you prepared to dominneer over ten millions of people and their descendants throughout all time by the coercion of military power?

Do you believe it possible to maintain the Republican institutions of the North concurrently with the maintenance of a standing army of half a million of soldiers, who must necessarily be placed at the disposal of an executive chief?

It will remain an *eternal truth* that the States which have gone into this rebellion have not done so by a free vote of their people. In many of the States, the question was never submitted to the people. They were precipitated into rebellion by politicians, and we have a right to say, from the fact that they dare not submit the question of rebellion to the people, that the people were opposed to such rebellion. Look at what has been done in North Carolina at the first moment the people dared to speak; and we have assurances, in the refusal of the armed brigands to permit the people to vote, what will be done when the rebel armies are driven from other States. The rebel politicians and newspapers, fully conscious that the people are against them, are now seeking to destroy the right of suffrage, and to introduce into the South a military despotism. Let the arms of the United States triumph, and the right of suffrage be extended to all the free whites, and the tyrants who have inaugurated this attempted revolution, will be swept from the positions they have assumed, never to raise their heads again.

We thus answer the interrogatories we have copied from the *Advertiser*. That paper has published the questions of O'Brien addressed to Col. Meagher. Will the *Advertiser* now give the other side—and publish the eloquent speech of Col. Meagher, as an answer to O'Brien—the same speech which is now being published in numerous Union newspapers?

We will answer for the *Advertiser*—for we know its treasonable sentiments well: *It will not publish the address of Col. Meagher.* It DOES NOT DO IT.

Washington Territory Legislature.

OLYMPIA, W. T., Dec. 9, 1861.

Editor Oregonian:

The House did no business to-day. The following standing committees have been appointed for that body:

Elections—Messrs. Taylor, Aird and Bozarth.

Ways and Means—Messrs. Bozarth, Bates, Babcock, Beatty and Chapman.

Education—Messrs. Denny, Cook, Griswold, Gardner and Gilliam.

Judiciary—Messrs. Cook, Watson, Hitchcock, Page and McCall.

Claims—Messrs. Griswold, Lombard and McCall.

Memorials—Messrs. Lombard, McLean, Leslie, Smith, of Walla Walla, and Smith, of Clarke.

Military Affairs—Messrs. Smith, of Walla Walla, Ruth, Taylor, Thornton and Thornbrough.

Roads and Highways—Messrs. Hitchcock, Urquhart, Williamson and Wilson.

Enrolled Bills—Messrs. Williamson, Warbass and Ruth.

Indian Affairs—Messrs. Page, Aird, Bozarth and Wilson.

Commerce—Messrs. Urquhart, Bates and Babcock.

Printing—Messrs. McLean, Lombard and Warbass.

Corporations—Messrs. Wilson, Page and Ruth.

Rules and Orders—Messrs. Warbass, Griswold and Gardiner.

Agriculture—Messrs. Aird, McCall and Leslie.

Public Buildings and Grounds—Messrs. Hinckley, Lombard and Page.

Library—Messrs. Bates, Yantis and Taylor.

This afternoon the Council was organized by the following elections: A. R. Burbank, President; Thomas M. Reed, Chief Clerk; Deferfield Turpin, Asst. Clerk; David P. Wallace, Sergeant-at-arms and Jacob Smith, Doorkeeper.

All the members of the Council were present except Messrs. Simms, of Walla Walla and Caples of Clarke Co.

After the election the President made a brief and pertinent address.

The Council then adopted resolutions apprising the Governor of its organization, and adjourned till to-morrow.

OLYMPIA, Dec. 10.

At eleven o'clock Governor Turney delivered his annual message to the two Houses in joint convention. It occupied nearly an hour in the delivery.

Three more members of the House arrived last night—Messrs. Bates, of Missoula, Gilliam, of Walla Walla and Chapman of Pierce—late Speaker of the Vancouver Legislature—who resolved to stay there and pass laws.

Governor Turney has appointed Mr. Murphy, of the *Standard*, Printer, until the Legislature elects a Printer. It is rumored that Lodge, late of the *Pioneer*, muzzled by the Republican Central Committee last summer, will contest. Poe, of the *Overland Press*, is actively canvassing for the office with some prospect of success. Damon, of the *Northwest*, has just left here. The publishers are looking for this lucrative position with considerable warmth, and there is fun ahead—"may the best man win." We venture the opinion that if the Legislature recommend a man satisfactory to acting Governor Turney, he will get the printing—but as he is disbursing officer it is likely he will first have a word to say as to how and to whom it shall be disbursed.

Neither House did any business to-day except ordering the message printed.

QUID NUNC.

ITEMS.—The District School had a jollification night before last at the Washington Hall. Bountiful tables were spread; music, pretty girls and dancing were among the features of the evening.

Parties in prospect—a Christmas ball on the 25th; a Masonic ball on the 27th at Victoria; a New Year's ball at Seattle on the 30th.

The Mail to Colville.

This mail has been discontinued. It was an essential institution for the post at Colville and the settlements in that vicinity.—Major Lugenbeel did not receive his letters and papers for months; did not know the reason until informed by the postmaster at Walla Walla that the mail route had been discontinued. Will Col. Wallace attend to this matter?

Our neighbor, who trotted about this State last summer with the idea that by some "hook or crook" he would be made Senator, and who actually succeeded in obtaining one vote, congratulates us on our early "application" for the appointment of Paymaster. He supposes that finding himself under the necessity of trotting as aforesaid, that we must have found it expedient to make "application." The mistake is natural. We were under no necessity of making the application stated, and we only add "let those laugh who win."

Mails for the Upper Country.

Our present mail arrangements were made for an era fast passing away. We must have mail arrangements to supply the settlements above us, at once. We should have a daily mail carried by steamer daily, if possible, and at least three times a week between Portland, the Dalles and Walla Walla. From the latter point there should be a weekly mail carried to the New Boise mines, the Salmon river mines, the Grande Ronde and Powder river. The population [illegible] to the latter points to have our mails, wealth, should have the advantages of regular mails, by which they can regularly receive, at cheap rates, letters from home, and send news to their friends of their wants and their success. We call upon our Senators and the Delegate from Washington to attend promptly to this matter. To their host they can safely hope to keep up with the demands and needs of the population now pushing their way to the mining regions east of us. The demand for mails in the mines is imperative.

COMING TO THE PACIFIC.—The singular fact was witnessed on the arrival of a late steamer at San Francisco from Panama, that three hundred women with their husbands, were steerage passengers, on board. They were mostly from Missouri, glad to get away; and and not having money to pay their cabin passage, they were willing to suffer all the inconveniences of the steerage to reach this coast. Such is the increase of business on the steamers running to Panama and from Aspinwall to New York, that it has been determined to increase the present tri-monthly to a weekly line. That done, the one between San Francisco and Portland should be improved to a weekly line. The interests of the public and the profits to the stockholders will require it.

The *Telegraph* ran from the Dalles to Lewiston in 58 hours. She came down in 16 hours. Traveling in steamboats to the mines is much pleasanter than "footing it," or being transported astride a mule.

The *Mountaineer* says that a company with ample means will proceed at once to the construction of a railroad from the Dalles to the Deschutes.

THE TELEGRAPH TO YREKA.—Mr. J. C. Stone arrived here on Saturday last, from a trip through California and Oregon, where he has been on business connected with the construction of the telegraph line from this city to Yreka. Mr. S. informs us that he was successful in obtaining all the shares along the line he wished for. He says he has already contracted for the erection of the poles the whole distance, and expects to complete the work during the coming summer. He invites our citizens to subscribe about fifty shares more, the balance not yet taken, which will give them some control in the business operations of the company.

AGRICULTURAL MEETING AND ADDRESS.—On Saturday there was an adjourned meeting of the Agricultural Society of this county at the courthouse, before which Dr. W. H. Watkins delivered the annual address. This was a very practical effort, and as it is to be published in pamphlet form, we believe will do good. The Society, among other business, has materially amended its constitution, which we believe will make it work well.

BILLS FILED.—The attorneys in the great Mullan case, now pending in the U. S. District Court, filed their respective briefs in this case on Friday last; so our citizens may soon hear a decision on this vexed question.

BRISK BUSINESS.—We notice that W. P. Abrams & Co.'s saw mill is now running day and night to supply the great demand for lumber.

NEW FERRY BOAT.—We are informed that Mr. Knott has contracted for the building of a new and substantial ferry boat, to take the place of the one now in use.

NEW MAPS.—Several competent persons in this city are compiling maps of the new gold region.

SNOW.—Yesterday morning we found mother earth dressed in snowy raiments for the first time this season.

Transportation to the Mines.

If the present population east of the Cascades requires all the means of transportation of the Columbia River Navigation Company, it is very evident that when that population is quadrupled, vastly increased means of transportation will be required. The company anticipating the wants of the country are about to add two steamboats to ply above the Dalles, of large capacity and calculated for the business of the upper waters. Work is now progressing upon both of them and both of them will be completed by the first of April. The Company are preparing for the tremendous business now in prospect—the transportation of passengers, goods and provisions for the miners on the upper rivers. We shall see sights in trade the coming year.

STEAMBOATS TO FORT BENTON.—We hear, what we deem good authority, that a very large number of steamboats, (our informant says fifty,) will make the trip with freight and emigrants from St. Louis to Fort Benton the coming season. There is a vast number of boats suitable for this trade on the western rivers now lying idle. The news of the discovery of our gold mines has caused an excitement in the Western States, which will fill all cargoes and a full supply of passengers. These steamers will reach Fort Benton about the first of July, and the passengers will require a vast amount of transportation to reach the mines or the lower country. We will have a practical evidence the coming summer of the value of Mullan's mountain road.

We conjure the *Times* not to publish another article under the head of "stupidity." The quotation published from the *Mountaineer* in the *Times*' first article on this subject—a position offensive to decency—settles this question of *stupidity*. We admit that the facts in favor of the road, as the best that can be found, to the Salmon river mines, coming from Ore Fino, for reasons and conclusions entirely satisfactory to himself.

Our accounts from the route of the mail stage south, are against the regular running of the stage for some days to come. The country on the stage route in California has suffered as much from the flood as portions of Oregon.

We made an error in the publication of Mr. Sherrill's letter from Salmon river a few days ago. We made him say that some digger yielded $200 a day—his letter said $400.

Travelers from Lewiston to Walla Walla were constantly meeting provisions and teams for the mines.

Swett's Grape Bitters, or Restorative Wine, manufactured under the supervision of MRS. A. M. SWETT, the celebrated Clairvoyant Physician, and prepared from roots and herbs of great medicinal virtue, combined with the pure juice of the California Grape—a certain remedy for Liver Complaint, Debility, Biliousness, Costiveness, Dyspepsia, Impaired Appetite, Impure Breath, &c., and all diseases arising from a powerful Liver Invigorator and Tonic. Warranted the best remedy ever invented for the cure of Fever and Ague, Fever and Chills, Intermittent or Remittent Fever, Bilious Fever, Jaundice, Nervousness, Weakness, &c. Sold by all druggists, and by DANIEL SWETT, Proprietor, 24 California street, San Francisco.

The Medical and Surgical Institute of DR. E. J. CZAPKAY has recently received a petition which places it in the power of the proprietor, for above the ensuing year, to offer his professional services gratuitously to the poor of San Francisco. In the schools of France the last year or two of the term is awarded to deserving students in the department of medical science, and they occupy with others an equal duty position in the profession. Dr. Czapkay has availed himself of this example, shining light among the philanthropic offices of his adopted country, and Dr. Czapkay has fully qualified him in this country, as is proof of which the Philadelphia College of Medicine complimented him with a Diploma, and the honorary and emblematic degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors, Dr. E. J. Czapkay has kept his earnest attention to the cure of chronic and private diseases, in which he has become so great an expert, that he is now regarded as the leader in this branch of his profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures, in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $10 in their letters, and they will get immediate attention to their cases. Address, E. J. CZAPKAY, M. D., San Francisco, Cal. june23d&wly

Coughs.—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement.

HAVE THE

BEST ARRANGED GALLERY OF DAGUERREOTYPES

Pains in the Bones and Ankles, diseases of the Throat, Nose and Eyes. Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus' Dance, and all diseases arising from a derangement of the Sexual Organs, such as Nervous Trembling, Loss of Memory, Lassitude, General Weakness, Dimness of Vision, with pimples appearing before the eyes, Loss of Sight, Weak Kidneys, Dyspepsia, Liver Diseases, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities and all Impurities or discharges of both sexes. It matters not from what cause the disease originated, however long standing, or of whatever nature it may be, a cure is certain, and in a shorter time than can be effected by any other treatment. No matter what the disease has baffled the skill of our most eminent physicians, or what their means of cure. The medicine is purely vegetable, and contains no mercury or any other poisonous substance. Many of the most eminent practitioners in Europe, the Atlantic States and California have learned from the lips of the dying patients who, in the last stages of the above maladies, have been given up to die by their physicians, of the wonderful healing properties of my remedies. Many of these persons, under my care, have died in a few days, from the effects of the poisonous mineral drugs which had been administered to them by their physicians, and which only hastened the progress of the disease, instead of curing it. Thousands of such cases are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A perfect cure is scarcely ever effected when such cases are allowed to fall into the hands of incompetent persons who do not only fail to cure the disease, but ruin the constitution by filling the system with mercury, which, with the disease, hurries the sufferer into a rapid consumption, or should the disease and the treatment not cause death speedily, and the victim survives, the disease is entailed upon the children who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, blotches, ulcers, eruptions and other affections of the skin, even unto the third and fourth generation, entailing upon them a life of suffering, and consigning them to an early grave.

Scrofula is another formidable enemy to health, as it ranks the first in the dread catalogue of human diseases, and seizes with a firmer grip upon the system—drawing its victims through a few years of suffering down to an untimely grave. It destroys the nervous system, unfits the energies of life, causes mental derangement, prevents the proper development of the system, unfits the sufferer for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of diseases worse than death itself. With the fullest confidence I assure the afflicted, unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities, and all diseases of males and females, treated on principles established by fifteen years of extensive and successful practice, by thousands of the most remarkable cures. Medicines, with full directions, sent to any part of the States, Oregon and Washington Territory, by patients describing their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Clay street, below Montgomery, opposite Pacific Express Co.'s Office, San Francisco.

Remarkable Instance of Medical Relief.

Below we publish the certificates of three of the many from the pangs of disease, who, having received their former health, and impelled by gratitude, make known their cases and remedial agent, and their statements are authenticated by a Notary Public. These certificates we request all to command their publicity, and we commend their perusal to the attention of all afflicted.

Certificate.—The undersigned, desirous of assisting those who may be unfortunate enough to be afflicted as he has been, where a permanent relief of that terrible disease is obtained, feels it his duty to thus publicly express his sincere gratitude to Dr. L. J. Czapkay, for the entire recovery of his health. Borne down by the most distressing symptoms incident to the vicious practices of previous possible passion in youth; depressed in body and mind, unable to perform even the most trifling duty imposed upon him in the daily avocations of life; I sought the advice of many physicians, who at first regarded my disease as trifling in its appearance—but, alas! after a few weeks' trial, I found it to advance in its most frightful and terrible forms. I consulted, at different months, of their treatment, I found it only added to my misery, that instead of relief, my symptoms became more alarming in their torture; and being told by some of the physicians that my disease, being principally confined to the brain, nothing would be of little consequence, I despaired of ever regaining my health, strength, and energy; and in this condition, with but a faint hope, called upon Dr. Czapkay, who, after examining my case, prescribed some medicine which instantly relieved me of the dull pain and distress in the head. Encouraged by the result, I resolved to place myself entirely under his care, and by strictly following his directions and advice, my head became clear, and in three months I felt the constant pain in my back and all the weakness of my limbs, the nervous irritation of my whole body, in the smallest alarm or excitement, the incapability to study, and a multitude of other symptoms, all disappeared, and I found myself once more in the full enjoyment of health, vigor, and manhood. I am now, and have been for the last eight months, engaged in business, and feel as well as any man in the city. Now that you know what I suffered, and how completely I am satisfied of my complete recovery, and the means by which it was effected, you are at liberty to make such use of this letter as you may think proper, and the above statements, which you are at liberty to publish, are the plain, unvarnished facts. I can hardly tell you how much I feel indebted to you for your kindness, skill, and attention to me during my illness, which you have rendered me, and I feel you have been more than a friend to me. I feel as well as any man in the city, and would not take twenty dollars for what I have received from you. If you think anybody will be benefited by the publication of this letter in the newspapers, you are at liberty to do so. I remain, gratefully yours,

THOMAS HILL.

Thankfulness is the inconvenient gratitude.

CERTIFICATE.—Prompted by an honest desire of my heart, I will say to the public a few words concerning my health, which has been restored to me by the skill of Dr. L. J. Czapkay, of San Francisco. About two years ago, I was seized with a fever, which settled in my back, and left me with a weakness in the loins, which no medical treatment could remove. I was confined to my bed for months, and was given up by my physicians as incurable. I was then induced, by the earnest solicitation of my friends, to try the skill of Dr. Czapkay, who, after thoroughly examining my case, told me that he could cure me, and I placed myself under his treatment. In a few weeks, I was able to walk about the room, and in two months after I commenced his treatment, I was able to walk out. I am now in the enjoyment of perfect health, and feel grateful to Dr. Czapkay for the restoration of my health, and would recommend all afflicted with any disease to call on him, as I feel confident that he can cure them. I am willing to answer any questions that may be asked me concerning my case, and will cheerfully do all in my power to relieve the afflicted.

MRS. M. A. HILL.
